Skin care

Pearl and MIKIMOTO COSMETICS

Pearls are known as the only living jewels, and have also been effective as a nature-based remedy from ancient times.

Under the dream of Mikimoto Kokichi, the founder of the company, “to adorn the necks of all women around the world with pearls,” our company focused on the “power of beauty possessed by pearls” and has been engaged in ceaseless research activities.

In 1996, we finally discovered substances that enhance the beauty of skin.

Cosmetics, including the precious substances found through the research into pearls, have contributed to the beauty of women for more than half a century.

Through the experience of “absorbing the components of pearls for the skin,” which can be realized only by MIKIMOTO, an expert in pearls, we aim to realize physical beauty and mental satisfaction, and the happiness that can be felt beyond.

Skin care

MOONPEARL

This is a series of skin care products for bouncy, bright, and clear skin, developed with the concept of "skin beautification science generated from light and ocean."

Realize a pearl-like graceful skin induced by the energy of nature.

MOONPEARL

EXTRA

Using the bounty of the sea to promote supple skin with a regal air.

The pinnacle^{*1} of aging care^{*2} reaches every part of mature skin's corneal layer without fail.

Leaves skin with a youthful freshness and elasticity.

*1 In comparison with other products offered by MIKIMOTO COSMETICS

*2 Age-appropriate care
